OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Dolly Varden	6/29/2005		yes	yes	<input checked="" type="checkbox"/>
Coho Salmon	6/29/2005		yes	yes	<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:

**Add new streams w/ DVP COR**

**NAD27**

See attached map: the section denoted with the dashed yellow line is the section of creek that was investigated as requested by Ed Weise

Trap 1: 57° 41.625 N 152° 34.818 W Dolly Varden and Coho Salmon fry  
Trap 2: 57° 41.66 N 152° 34.867 W Dolly Varden and Coho Salmon fry

#### MESSAGE:

J.

One trap was at the headwater of the fork that terminated on the N/W side of the road. And the 2nd trap was located just on the S/E side of the road where the creek passes under at a culvert. The third trap was stolen at the end of the yellow dashed line. But since the trap was stolen - have no data to correlate w/ it.
